WORK EXPERIENCE

Company : GW Intech Sdn. Bhd.

Position Title : System Support Executive

Working Period : 2014 – 2015

Job Description

i. Design and develop user interface of Sistem e-Pihak Berkuasa Tempatan, a J2EE-based system for Malaysia Ministry of Urban Wellbeing, Housing and Local Government.

ii. Design and develop modular CSS/Sass(Cascading Stylesheet/Synthetically Awesome Stylesheet) of the system. I feel that the system should implement Sass because the system is using multiple stylesheets and I feel that there is a need to make it modular and maintainable.

iii. Plot the user-experience and design usability of the system in both desktop and mobile adaptation where I plan the users should only click twice to perform any operation in order to increase the efficiency of their workflow.

Company : Icherry Technology Sdn. Bhd.

Position Title : Web Developer

Work since : 2015 – Present

Job Description

i. Provide support for Stock TPC and TN Fresh Warehouse System. The internal web applications are responsible in recording daily amount of farm produce in the warehouse.

ii. Redesign Asia Car Rental website and its backend system. Asia Car Rental is a company running car rental business. The system allows customers to rent cars online.

iii. Build an event registration system and website for TMI Malaysia Sdn. Bhd. for their event 'Search Inside Yourself '.
